

4) Internalizing Disorders: Interpersonal Therapy for Adolescents with Depression (IPT1001)

ONE DAY TRAINING

Interpersonal Psychotherapy for Adolescents (IPT-A) is an effective time-limited intervention for depression. IPT-A focuses on one or two interpersonally relevant problem areas: Role transition, role dispute, grief, interpersonal deficits, and single-family parents. In this INTRODUCTORY workshop, participants will learn the basic goals, strategies, and techniques of IPT.

TIME: 9:15 – 3:30 (Please note new starting time)

AUDIENCE: (maximum of 40 per session)
